Model:

Power Tower 3.1m

Category:

Low Level Platform (Push Around)**Dimensions**

A	Work Height	5.10m
B	Platform Height	3.10m
C	Working Footprint	1.52m x 0.75m
D	Length	1.60m
E	Width	0.78m
F	Height	1.85m

Specifications

Lifting Capacity	250kg
Maximum Manual Force	200 N
Maximum Gradient For Operation	0 degrees
Maximum Wind Force	Internal use only
Manual Push Force on Level Ground	9kg
Maximum Castor Point Load	2.9 kN
Weight	342kg
Power	12V D.C. Battery
Options	110V or 240V

**Special features**

- Now with an even larger platform (1.52m x 0.75m), the Power Tower gives the user even more room to work and more room for tools and equipment
- The Power Tower is heavy duty providing an effective, safe and efficient alternative to large podiums or scaffolding towers
- The Power Tower also offers an emergency descent from ground level, and audible ascent and descent drive alarm
- You're always safe and fully guarded in the basket from the ground up
